# Come rain... ...come shine!

- Easy to install
- Inexpensive
- Simple on/off operation
- Automatic shut-off
- Suitable for existing and new homes
- Automatic rainwater diversion when tank reaches full capacity
- 4600 litre capacity
- Internal self-cleaning leaf filter
- Designed and manufactured in Ireland

**RainTrap** is the new, inexpensive underground rainwater storage and delivery system from the market leaders in rainwater harvesting.

The **RainTrap** will collect rainwater from the roof via the existing guttering and downpipe system on the property. The integral leaf filter will remove unwanted debris washed down from the roof thus ensuring good quality stored water.

The system can be used all year round to water the garden, operate a sprinkler or wash the car.

Capacity (litres)	Overall diameter (mm)	Height to inlet/outlet (mm)	Weight (kg)
4600	2080	1925	210
